

Construction Notice

Construction of the Lewis Farms construction laydown area AREA 8

April 19, 2022 - As part of the Valley Line West LRT project, Lewis Farms Transit Centre Park & Ride facility will be expanded, and the new Light Maintenance Facility will be constructed. On or around April 25, 2022, Marigold Infrastructure Partners (MIP) will begin work to create a storage area for construction materials, trailers, and equipment in the area on the east side of the transit centre parking lot.

There will be increased traffic to and from the work site. Most of this work will occur during daytime hours (7 a.m. – 9 p.m.), however, occasional overnight work can be expected. The public will be notified ahead of these works.

Lewis Farms Laydown Area

To accommodate this work, the public will be impacted in the following areas:

- There will be increased traffic to and from the work site.
- Noise can be expected during construction.
- Construction work will create dust. Dust mitigation measures will be in place.
- For safety and security purposes, the area will be lit with work lights. MIP will ensure that these lights are not a hazard to nearby motorists or shining into local homes.
- Every effort will be made to reduce the impact to the public.
- The perimeter sidewalk on the west and south sides of the parking lot was closed in July 2021. All sidewalks within the interior of the existing parking lot will remain open during construction to allow access to the Transit Centre
- This laydown area is expected to be maintained until construction is complete.

The information in this bulletin is current to April 19, 2022. Please note that all dates are approximate and weather dependent. We thank you for your patience and understanding during the construction of the Valley Line West LRT project.
