

Construction Notice: Valley Line West LRT

Construction of the Anthony Henday Drive construction laydown area

UPDATE, October 13, 2022: Due to construction activity continuing into the winter months, please note that there will be intermittent overnight work in the Anthony Henday Drive construction laydown area.

August 11, 2021 - As part of the Valley Line West LRT project, a new LRT bridge will be constructed over Anthony Henday Drive on the south side of 87 Avenue. In the coming weeks, Marigold Infrastructure Partners (MIP) will begin work to create a storage area for construction materials, trailers, and equipment in the area off 87 Avenue on the east side of Anthony Henday Drive.

Anthony Henday Drive and 87 Avenue Laydown Area

There will be increased traffic to and from the work site, however, heavy vehicles will not be permitted to access the site during peak hours (6 a.m. – 9 a.m. and 3 p.m. – 6 p.m.) Equipment and construction vehicles will gain access by way of decelerating on the interior shoulder in the work zone and will leave the work zone by accelerating on the interior shoulder prior to merging into traffic.

Most of this work will occur during daytime hours (7 a.m. – 9 p.m.), however, occasional overnight work can be expected. Marigold Infrastructure Partners is committed to following all City of Edmonton bylaws and regulations and, when these situations arise, will obtain an overnight roadwork permit so that work can take place during nighttime hours in order to minimize major daytime traffic disruptions. *City of Edmonton Bylaw C14600.

- There will be increased traffic to and from the work site.
- Noise can be expected during construction.
- Construction work will create dust. Dust mitigation measures will be in place.
- For safety and security purposes, the area will be lit with work lights. MIP will ensure that these lights are not a hazard to nearby motorists or shining into local homes.
- Every effort will be made to reduce the impact to the public.
- This laydown area is expected to be maintained until construction is complete, at which time it will be re-vegetated.

The information in this bulletin is current to August 11, 2021. Please note that all dates are approximate and weather dependent. We thank you for your patience and understanding during the construction of the Valley Line West LRT project.
