

Neighbourhood Notice: Valley Line West LRT Structure Delivery at Jasper Place Utility Complex (100A Avenue and 156 Street) AREA 4

Marigold Infrastructure Partners crews are constructing a Utility Complex at 100A Avenue and 156 Street. During the evening of **March 6, 2025**, a prefabricated Traction Power Substation (TPSS - a building that provides electricity to the train) will be delivered to the site.

This wide load will be transported east on 100A Avenue. Once at the location, the trailer will enter the site to offload the structure. This is anticipated to occur between midnight and 2:00 a.m. This is not expected to impact pedestrians or motorists.

There may be noise associated with this work. While noise is unavoidable in any construction project, Marigold is committed to minimizing the disruption to nearby residents.

100A Avenue and 156 Street

Marigold Infrastructure Partners is committed to following all City of Edmonton bylaws and regulations and, when these situations arise, will obtain an overnight roadwork permit so that work can take place during nighttime hours in order to minimize major daytime traffic disruptions. **City of Edmonton Bylaw C14600*. The public will be notified ahead of these works.

The information in this bulletin is current to February 27, 2025. Please note that all dates are approximate and weather dependent. We thank you for your patience during construction of the Valley Line West LRT project.
